

**REMARKS**

Considering first the restriction requirement, the restriction requirement is respectfully traversed. The Examiner takes the position that the three invention Groups do not relate to a single general inventive concept under PCT Rule 13.1; yet, all three invention groups were considered in the International Search Report (INSA). Accordingly, it is submitted Groups I, II and III should all be examined in a single application.

Notwithstanding the foregoing, so as to be fully responsive, Applicants provisionally elect, with traverse claim Group I (claims 1-23 and 27-45) drawn to fuel cell system.

Regarding the Species election requirement, Applicants elect, without traverse, Species A, and claims 1-7 and 16-23.

In summary, Applicants elect, with traverse claim Group I, and without traverse Species A, claims 1-7 and 16-32, and request that non-elected claims be maintained in this application, without further action, for possible rejoinder or for filing of a divisional application.

Action on the merits is respectfully requested.

In the event there are any fee deficiencies or additional fees are payable, please charge them (or credit any overpayment) to our Deposit Account Number 08-1391.

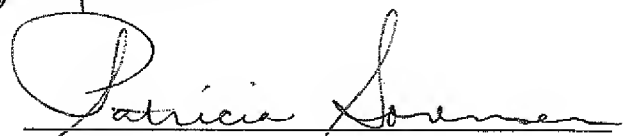

Respectfully submitted,

Norman P. Soloway  
Attorney for Applicant  
Registration No. 24,315

**CERTIFICATE OF ELECTRONIC FILING**

I hereby certify that this paper is being deposited with the United States Patent Office via the electronic filing procedure on July 28, 2009 at Tucson, Arizona.
